

SELECTED LEADERS : LEADERSHIP COMPETENCIES

INSPIRE YOUR AUDIENCE™

Possessing good public speaking skills is no longer a bonus; it is now a necessity to excel in all areas of life. As student leaders, the ability to communicate, present, persuade and lead reflects their excellence of themselves and serves as powerful tools for successful endeavors. Inspire Your Audience™ holistically covers the whole process of public speaking from preparing a presentation to executing a winning conclusion, and educating participants in the different contexts and levels of public speaking.

PEER MEDIATION™

Peer Mediation™ looks to empower youth leaders to mediate peer disputes such as rumors, name calling, minor harassment or bullying and relationship fights that can often get in the way of classroom learning and school safety. At a time when adults look to youth to solve their own problems without constant adult supervision, peer mediation is an effective way for schools to decrease violence and increase student empowerment and community service.

PROJECT MANAGEMENT™

Project work has become an increasingly important aspect of a student's basic curriculum. Project Management™ equips student leaders with essential project management skills, enterprising and creative mindsets; and it guides the leaders in achieving effective teamwork skills using a simple, methodical and comprehensive approach.
