

HighEXPLORER™

Being at the cusp of adolescence, students are becoming more aware of their environment and the changes that are going on around and in them. By equipping them with the right self-image, the strength of character and confidence they are all set to grow and achieve well in their formative years. This camp sets to broaden the horizons of the Primary 5 students by starting them on a journey, one of discovery of self, others and the world that they live in. Camp *High Explorer™*'s specially designed learning platforms, will cause them to explore, venture and discover.

HighCONNECTOR™

Camp *High Connector™* is specially designed to equip Secondary 2 students with the means to better understand themselves, by focusing on how they handle relationships and how they learn to work with others in a team. With proper and adequate self-knowledge, students will become more confident and hence, more willing to fulfill their role in a team and contribute positively. Through constant interaction with their team members, students will learn that an individual's value transcends his/her appearance into the inner core of who they are. They will come to appreciate that in diversity, there is unity and value.

HighADVENTURER™

Camp *High Adventurer™* is designed to equip Secondary 3 students with the means to better handle problems and crisis that are part of the growing up process. Students learn how to be optimistic, and how not to give up in the face of struggles and adversities. Within the safe confines of the campsite and its surreal surroundings, both the physical and mental mettle of the students will be pushed to their limits. In the midst of the fun and play, the lessons embedded in the activities will teach students crisis management, risk taking married with responsible decision making and looking out for the interest of others.
